nanodeck[®]
saves time, money & work.

nanodeck[®]
is extremely economical in
application.

nanodeck[®]
coating provides highly effective
long-term protection against:

- dirt
- scratches
- weather & environmental
impacts.

The "lotus effect"
got its name from
the special
characteristics of
the lotus leaf.

Attention with other products!

Just because it says "nano",
it doesn't mean it is
"real nanotechnology"!

Use original nanodeck[®]
products.

nanodeck[®]
works together with leading
research centers & universities.

nanodeck[®]
is antibacterial & dirt-repellent.

Windshields coated with
nanodeck[®] do not require the
use of wipers at 40 mph or more.
Even ice and flyspeck can easily be
removed. Better visibility in the
dark and during rain or snowfall.
